Consideration of Assistive Technology

Consideration of Assistive Technology in the IEP:

The exceptional student department utilizes a consideration of assistive technology model that was originally developed by the Georgia Project of Assistive Technology (GPAT)

[Procedures for Requesting Services](#)

[Request for Services](#)

Areas of assistive technology consideration include: Academic and Learning Aids, Augmentative Communication, Assistive Listening Devices, Computer Access and Instruction, and Aids to Daily Living.

Our assistive technology team provides support in the following areas:

- Student Consultations: This is first step in the assessment process after the IEP Team or special education teacher requests assistance from the system-wide Assistive Technology Coordinator.

[Parent Permission for Consultation](#)

- Classroom Consultations: An exceptional student teacher requests assistance at the classroom level from the Assistive Technology Coordinator.

[Classroom Consultation Information Form](#)

- Student Evaluations: If the IEP team and system-wide Assistive Technology Coordinator can not determine appropriate needs after the student consultation, the IEP team may request an assistive technology evaluation from the Assistive Technology Team. (see family and professional link for AT student evaluations)
